PACKING at cost, usually 10% per 1000 Cions

The figures preceding the name give the approximate number of Cions remaining on hand when this list is issued. Where no numbers are given we have already booked orders for the quantity we estimate we can do. After ordering is completed we may find we can do more or less of these sorts.

Quotation marks thus " before a variety name in full CAPITAL LETTERS are such names as are not yet approved by the American Pomological Society. When varieties have two or more names that lead to confusion or unusually long, this seems to remedy and simplify. We therefore list the incorrect names in small letters with quotation marks thus " before the incorrect names; these names are in alphabetical order in each class. Where no quotation marks are used the variety named in full capital letters is considered correctly used or not yet passed upon by the American Pomological Society.

Variety names with a star thus (*) are Arkansas origin, see Bulletin 275. Varieties with a double star thus (**) are such as we will only sell 3/5 of a bushel to one person or firm.

Address all orders and communications to THE FRANK WILD FLORAL CO., SARCOCKIE, MO.

All telegrams and telephone messages should be addressed to
